The dishonesty of this attempt to answer rather to avoid, has had its day. It has been used till it is worn out. But the wrong against which the protest is made is as flagrant as ever, and the protest is, and so long as the wron continues, will be, unanswerable. The fals assertion that republicans who speak against the infamy of electoral outrages in the South are sking to renew the battle fever," answers It is too shallow and dishonest to require a reply In making tills protest the re-publican party simply consecrates itself again, as of old, to law, to justice, to the constitution of the United States. There is the constitution which declares that the right of citizens of the inited States to vote shall not be denied or oridged by reason of color and vet this ve directed not only against the colored voters but against the whites who assert and endavor to maintain the principle of honest elections. The forfeiture of the land grant will involve no delay In his annual address to the board. President Macleay did well to dwell upon the importance to this city and state of developmen of our min-ing mescests. Mining is in the highest sense a productive industry. It employs labor and makes a market for agricultural products. It consumes general supplies and makes basiness for merchants. There is no uncertainty, no variation as to the value of its product, no lack of market for it. The O R & A Do to put on Three Additional Steamers to Carry Surplus Grain-Some of the Reasons Therefor

I ast Monday the steamer Geo. W. Elder left San I rancisco for this port, and will angage for some time in transporting grain from Portland to bus Pranasco, augmenting the regular then. The colliers Williamette and Walla Walla will load coal at Seattle for Portland, take wheat here for San Francisco and then return to Seat-tle The Col mable, State of Collifornia and Or-egon, issuing every four days, will take down all they can All this extra service is an answer

An ORRGONIAN reporter spent an hour or more among wheat buyers and commission houses, trying to learn the cause of so great a demand for tonneye to be Francisco. One of the largest wheat buyers in the city, and probably the oldest, each "The reason is that in San Francisco there is an over supply of ships and in Portland an under supply. Fringhts are low in San Francisco, and high here. The difference is about 10 shillings per ton, or \$4.75. The frieght by steamer is \$2.70 per short ton, or \$3.02 per long ton, making a difference in favor of the shipper of 73 cents per ton. A great deal of wheat sent to us is ordered shipped to san Francisco, where just now there is an unusual demand.

The difference of 15 shillings mentioned above is an extreme case. Easterday an iron ship 1400 tons, was chartered in San Francisco for Liverpool at 27 at do such a vessel could not have been chartered here for less than 125 6d for orders, but there is a difference of 25 of between chiralers direct and for orders, so a more nearly correct statement of the difference in frieghts would be 125 6d.

Another well informed dealer said that there was no necessity at this time for shipping whent it San Francisco. It will not be lon, before An UREGORIAN reporter spent an hour or

that the Oregop Railway'A Naugation company have done what they could to discourage wheat shipments to San Francisco, and I have heard of instances where they gave the preference, in furnishing cars, to wheat constitued to Portland So long as the regular steamships are employed, there is a fair profit in hailing wheat at, \$2.70 per too, but when they have to put on extra emply steamers, ranning empty on the returning they are working for nothing A good deal of oate is ging to San Francisco low, and I imagine there is a clear loss on transporting that grain?

The rame was set for 2 o clock and the clubs were ready to proceed at that time, but a postponement was ordered until after the horse racing. This detayed the game until 3 o'clock, when the game commenced, the Willamettes going to the bat first and making one run. But this funning was the only one played, as further operations were promitted by the rain, and the Willamettes returned home with \$10 for traveling expenses and consolation. It is said a arge crowd was present to witness the game who expressed much disappointment and indignation at the action of the managers or wheever was to blame.

BITTEN : (P. Sept. I TO THE EDITER OF THE OREGONIA In your commercial report lest wook you say that it is not known as yot whether any hop raisers will let their yards go unpicked. It is a realized fact here that eighteen or twenty growers will not pick at all. The picki is good, being, including new acreage, about four fifths as large as last year, when the yield was extraordinary of that, four-fifths one-fourth will not be touched. Of the remaining the se-fifths at least one-third will be lost, which would make the amount picked about here only two-fifths as much as last year, and I thin! that a very liberal estimate. If other localities are doing the same as this, hope may be worth something yet. The reason that so many will be lost is because the Chimanen held for higher wages than gro were would give, and in consequence some have only just begun picking, and expect to lose from one-third to one-half the crop frowers representing about 1.55 acres would not pick at any price, some through lack of funds and some because of the poor prospects. Chimanen are picking for 20 cents per box and picking from four to five boxes ber man a fay. The foliage is much less than last year, and it facilitates picking and enables them to pick cleaner. The hops are ripening very fast, ewing to the lack of moisture in the ground. The rain that we are now having may prolong the picking time. Hope can be picked, dried, baied and delivered in Portland for 3., cents per posum I wonder what eastern hop men would think of that.

At the entrance to the grove was the W. C. T. U. bloth, resourant, caldy store and free litera-ture stand Soliberally was it patronized that about \$40 was taken in, a considerable percenttore stand so liberally was it patronized that about \$400 was taken in, a considerable percentage being profit, since much of the provisions were doubted. A most handsome benner, hand painted on velvet, the present of the Missess Marriage, two English tourists kylo hars bought property and are passing the witer here, was much admired and valued. Within, the handlwork in the woman a department elicited much praise, especially paintings of North Wales and kosemits, by the ladies named, and a finely infished piece of needlework that guined a premium in a California state fair and for which \$500 has been offered Then there were quilts, cushious and covers, cruzy and atterwise, plain and fancy needlework sea moss, shell frames and a great variety of other attractive and artistic articles. One of the main attractions was the children's department, no comortitors being over 15 years of age. Here were useful and ornamental articles, showing much skill in design and execution in as wing also, the results of good cooking, putting up of fruits and judies, each of the children's pels were kittens, canantes and rabbits. The display of fruit was good, including ripe strawbernes and blick-berries, bickory mus, butter nuts, black and English walnuts, peaches, grapes and good-sucy and very fair sweept potatoes.
